DIRECTIONS FOR USE:

SITUATION:	APPLICATION RATE	CRITICAL COMMENTS
BROADACRE Spray marking	100mL/100 Litres	Suitable for use with pesticide spray solutions to enable clear identification of sprayed areas.
Back packs	10mL/10 Litres	
FOAM MARKERS	25 - 50mL per 100 Litres	Higher rate for deep blue foam colour. Add direct to diluted foam marking solution.
TURF Boom application to parks, ovals and fairways.	600 - 1000mL per Hectare	For uniform appearance to green surfaces.
For greens	6 - 10mL per 100 sq. Mtr.	Use higher rate for a deep rich turf colour.
For back packs and hand applicators.	30mL per 5 Litre	

NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS:

A blue liquid marking dye to assist in clearer identification of sprayed areas. A simple and cost effective system in all spraying situations to reduce costly problems resulting from over application or missed areas untreated. When used as a colouring agent with white foam markers, foam will become blue in colour to allow clearer identification. Application of ECODYE BLUE to turf, greens and fairways imparts a deep rich colour to green surfaces and provides a uniform appearance.

MIXING INSTRUCTIONS:

To achieve thorough mixing premix ECODYE BLUE with water in ratio 1:10 before addition to spraytank or knapsack. Add premix solution to spraytank first and follow with water to half fill tank. Add other ingredients under agitation followed by water to top up tank. Wash out all spraying equipment thoroughly after use as product residue can cause discolouration of subsequent sprays.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL:

Keep out of reach of children. Store in closed, original container in a well ventilated area, as cool as possible. Triple or, preferably pressure rinse containers before disposal. Add rinsings to spray tank or knapsack mix.

Do not dispose of undiluted chemicals on-site. Break, crush, puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS:

Do not swallow. Avoid contact with skin or eyes. Wear rubber gloves, overalls and goggles or face shield. Wash hands with soap and water after use.

FIRST AID:

If poisoning occurs contact a doctor or Poisons Information Centre (Ph 13 11 26). If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor. Additional information is listed in the Material Safety Data Sheet.

CONDITIONS OF SALE:

The use of ECODYE BLUE being beyond the control of the manufacturer, no warranty expressed or implied is given by ECOKEM Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and ECOKEM Pty Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
