

SPECIMEN LABEL

TOURNAMENT-READY®

High Performance • Long Lasting Residual • Environmentally Balanced

Principal Functioning Agents

Proprietary Blend of Nonionic Surfactants and
Silicone Antifoam Agent.....100.0%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Precautionary Statement

Avoid prolonged contact with skin. In case of contact, wash with water. Causes eye irritation. In case of contact with eyes, immediately flush with water for at least 15 minutes and get medical attention.

General Information

Tournament-Ready is a new chemistry that contains a blend of natural renewable-resource surfactant components combined with traditional surface-active agents that deliver long lasting residual performance. This unique class of surfactant blend works to prevent and control localized dry spots. Tournament-Ready is the only surfactant that combines ingredients known to deliver long-lasting residual performance with natural, environmentally-balanced components.

Research has proven that organic coatings surrounding sandy particles inhibit the infiltration of soil moisture. In high heat stress periods, delicate turfgrass can sustain injury or total loss due to lack of available moisture. Tournament-Ready will not harm beneficial soil microbes and has been developed with respect for the environment and worker safety.

Tournament-Ready works wherever localized dry spot occurs: golf greens and tees, fairways, athletic fields, and residential or commercial lawns.

Tournament-Ready reduces the surface and adhesive tensions of water. Tournament-Ready assists water's infiltration and drainage of compacted or hydrophobic soils. It assists in the wetting of heavy thatch and when used regularly, will eliminate localized dry spots.

Mixing with Water

This product mixes readily with water. Mix spray solutions of this product as follows: Fill the mixer or spray tank with the required amount of water. Add the recommended amount of Tournament-Ready near the end of the filling process and mix well. During mixing and application, foaming of the spray solution may occur but will slowly dissipate. To minimize foam, avoid the use of mechanical agitation, terminate by-pass and return lines at the bottom of tank and, if needed, use KALO Anti-Foam Agent.

Directions For Use

Golf Course Fairways and Athletic Fields: Tank mix 10 litres of Tournament-Ready in sufficient water to cover a hectare in mid to late spring. Water briefly after application.

Injection into Irrigation Systems: Apply 2.5-15 litres per hectare. Repeat injections as needed. Supplemental treatment of tees and greens may be required due to the diluted rate of application common with irrigation injection systems.

Lawn Care: Apply 250-500ml per 100m² for season-long residual performance. Water briefly after application to move the soil surfactant into the soil profile.

Bowling Greens: Apply Tournament-Ready at rate of 250ml in 20-40 litres of water per 100m² in early spring. Follow with an additional application of 250ml 14 days later.

Golf Course Greens & Tees: For use as a season-long preventive treatment:

- Apply 250ml per 100m² and then follow with an additional application of 250ml in 14 days. Water in after application.
- For heavily irrigated turf areas, apply 250ml per 100m² followed by 120ml in 7 to 14 days and another 120ml in 14 to 28 days following the initial treatment.
- A monthly maintenance schedule of 60-120ml per 100m² may be substituted for the second 250ml application to assist distribution of soil applied chemicals and fertilizers.
- Always water-in following any treatment to move Tournament-Ready into the soil profile to remove residue from the turf or plant surface.

Under extreme conditions, or in areas with extended growing seasons where desired residual performance is not achieved: It may be necessary to apply an additional 120-150ml per 100m² as a follow up treatment. See separate instructions for use of the Pro-Ap® Professional Applicator for this purpose.

For curative treatment of dry spots: Apply 120-250ml per 100m² every 7 to 14 days or as moisture or temperature conditions require.

Note: It is advisable during periods of high temperature to water-in Tournament-Ready applications.

Notice-Read Carefully

Limited Warranty and Conditions of Sale

In no event shall manufacturer or seller be liable for special, incidental, or consequential damages, or for damages in their nature of penalties relating to the goods sold. Manufacturer or seller shall not be liable to buyer or user by way of indemnification to customers of buyer, if any, or for any damages or sums of money, claims or demands whatsoever, resulting from or by reason of, or rising out of the misuse, or failure to follow label warnings or instructions for use, of the goods sold by manufacturer or seller. Buyer or users exclusive remedy and manufacturer or sellers total liability shall be for damages not exceeding the cost of the product.

Warranty Disclaimer

The goods sold to you by this agreement are furnished as is by manufacturer, or seller, and are subject only to the manufacturer's warranties if any, which appear on the labels of the products. The manufacturer or seller, make no other warranties, guarantees or representations of any kind to buyer or user, either expressed or implied or by usage of trade, statutory or otherwise, with regard to the product sold, included but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Ineffectiveness, or other unintended consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of manufacturer or seller. In no case shall manufacturer or seller, be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer or its customers shall assume all such risks. Tests have not been carried out under all possible use conditions, and manufacturer or seller, cannot and do not warrant that the product is compatible with all other chemicals.

The law of the state from which such goods are to be shipped shall govern the validity, interpretations and performance of this agreement with respect to goods delivered. This writing contains all of the representations and agreements between buyer, manufacturer, and seller, and no person or agent of manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to the goods.
