CAUTION**

Precautionary Statement

Always read and follow the entire label before use. Use eye protection while spraying and gloves while handling this product. May cause irritation to skin and eyes.

First Aid

If in Eyes: Immediately flush eyes with large amounts of water for 15 minutes lifting the lower and upper eyelids. If wearing contact lenses, remove lenses and continue flushing with plenty of water. Seek medical attention if necessary.

If on Skin: Immediately wash affected area with large amounts of water for at least 5 minutes. If irritation persists, seek medical attention.

If Swallowed: Give large amounts of water to drink. Seek medical attention if necessary. Induce vomiting only upon advice from a physician or poison control center.

Inhalation: Move individual to fresh air and check to assure adequate respiration. Seek medical attention if necessary.

General Information

Tournament-Ready Pellets contain the proven Tournament-Ready liquid formula packaged in a convenient system for supplemental treatment of highly maintained turf areas.

Tournament-Ready Pellets will effectively treat localized dry spot in a range of soil types or turfgrass varieties.

Use Tournament-Ready Pellets as a part of a comprehensive water management program for curative or preventative treatment of localized dry spot.

Tournament-Ready Pellets are formulated for use on golf courses, athletic fields and residential or commercial turf.

Directions For Use

Golf Course Greens, Tees and Other Highly Maintained Turf Areas: Using available commercial in-line hose applicators, remove the plastic lid, insert the Tournament-Ready Pellet and the plastic jar into the reservoir of the hose-end applicator with the opening of the jar containing the pellet facing toward the flow of water. Secure the reservoir to the applicator and begin application. Inserting the jar with the pellet facing away from the water flow will slow the rate of erosion of the pellet thereby reducing the amount of wetting agent dispersed over time. This is an acceptable option for minimizing wetting agent use.

Use Rates: One pellet should cover 1,200 square meters of area when watering at an average rate of 3 minutes per 100 square meters. The rate at which a pellet dissolves varies with water pressure, flow rate and temperature. Reapply Tournament-Ready Pellets as preventative treatment or follow-up maintenance in conjunction with regular turf management programs.

Storage and Disposal

Storage: Store in original container and do not reuse empty containers. Keep product in cool dry area and do not expose to heat or open flame.

Disposal: Dispose cartons and plastic jar and lid in accordance with state and local regulations.

NOT A PLANT FOOD PRODUCT

Notice-Read Carefully Limited Warranty and Conditions of Sale

In no event shall manufacturer or seller be liable for special, incidental, or consequential damages, or for damages in their nature of penalties relating to the goods sold. Manufacturer or seller shall not be liable to buyer or user by way of indemnification to customers of buyer, if any, or for any damages or sums of money, claims or demands whatsoever, resulting from or by reason of, or rising out of the misuse, or failure to follow label warnings or instructions for use, of the goods sold by manufacturer or seller. Buyer or users exclusive remedy and manufacturer or sellers total liability shall be for damages not exceeding the cost of the product.

Warranty Disclaimer

The goods sold to you by this agreement are furnished as is by manufacturer, or seller, and are subject only to the manufacturer's warranties if any, which appear on the labels of the products. The manufacturer or seller, make no other warranties, guarantees or representations of any kind to buyer or user, either expressed or implied or by usage of trade, statutory or otherwise, with regard to the product sold, included but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Ineffectiveness, or other unintended consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of manufacturer or seller. In no case shall manufacturer or seller, be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer or its customers shall assume all such risks. Tests have not been carried out under all possible use conditions, and manufacturer or seller, cannot and do not warrant that the product is compatible with all other chemicals.

The law of the state from which such goods are to be shipped shall govern the validity, interpretations and performance of this agreement with respect to goods delivered. This writing contains all of the representations and agreements between buyer, manufacturer, and seller, and no person or agent of manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to the goods.
