STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

Store in a safe manner. Store in original container only and keep tightly sealed when not in use. Dispose of unused product and empty containers in accordance with federal, state and local regulations.

ADVANTAGES AND BENEFITS

- Long-term feeding – 60% of the nitrogen in this product is from polymer coated urea.
- Formulated for fairways and other turfgrass areas with high performance needs.
- Minimizes excessive nutrient release at high temperatures.

DIRECTIONS FOR USE

Application Rate: Apply at 150 to 200 kg per hectare.

Apply to dry turf or foliage and irrigate thoroughly immediately after application. Iron and other plant nutrients can cause staining of sidewalks. Sweep walkways prior to irrigation. Walkways should be dry at time of application. Keep away from pools, ponds, etc. Do not contaminate potable water. Do not apply with a drop-type spreader. The grinding action of these spreaders destroys the coating of the urea and will increase burn potential.
